you can make new friends.
Reading, writing, music too,
the learning never ends.

In MARCH the trees change colour to orange, yellow, brown.

Autumn leaves make scrunchy sounds when stomped upon the ground.

In APRIL it gets cooler,
it's good to wrap up tight.
On really windy days,
go out and fly a kite.

A young child wearing a colorful raincoat (red, yellow, and blue) and blue boots is jumping in a muddy puddle. The child is looking down at the mud being kicked up. The background is a grassy field with a path leading away. The scene is outdoors and appears to be during a rainy day.

**Mother's Day is in MAY,
give her extra cuddles.
It can be a rainy month
so have a jump in puddles!**

it begins in JUNE.

Plant new crops and see seven stars
rise above the moon.

It's the middle of winter
but keep active in JULY.
Football, netball and rugby
are great team sports to try.

AUGUST is just awesome
for playing in the snow.
Grab a snowboard, sled or skis
and down the hill you go!

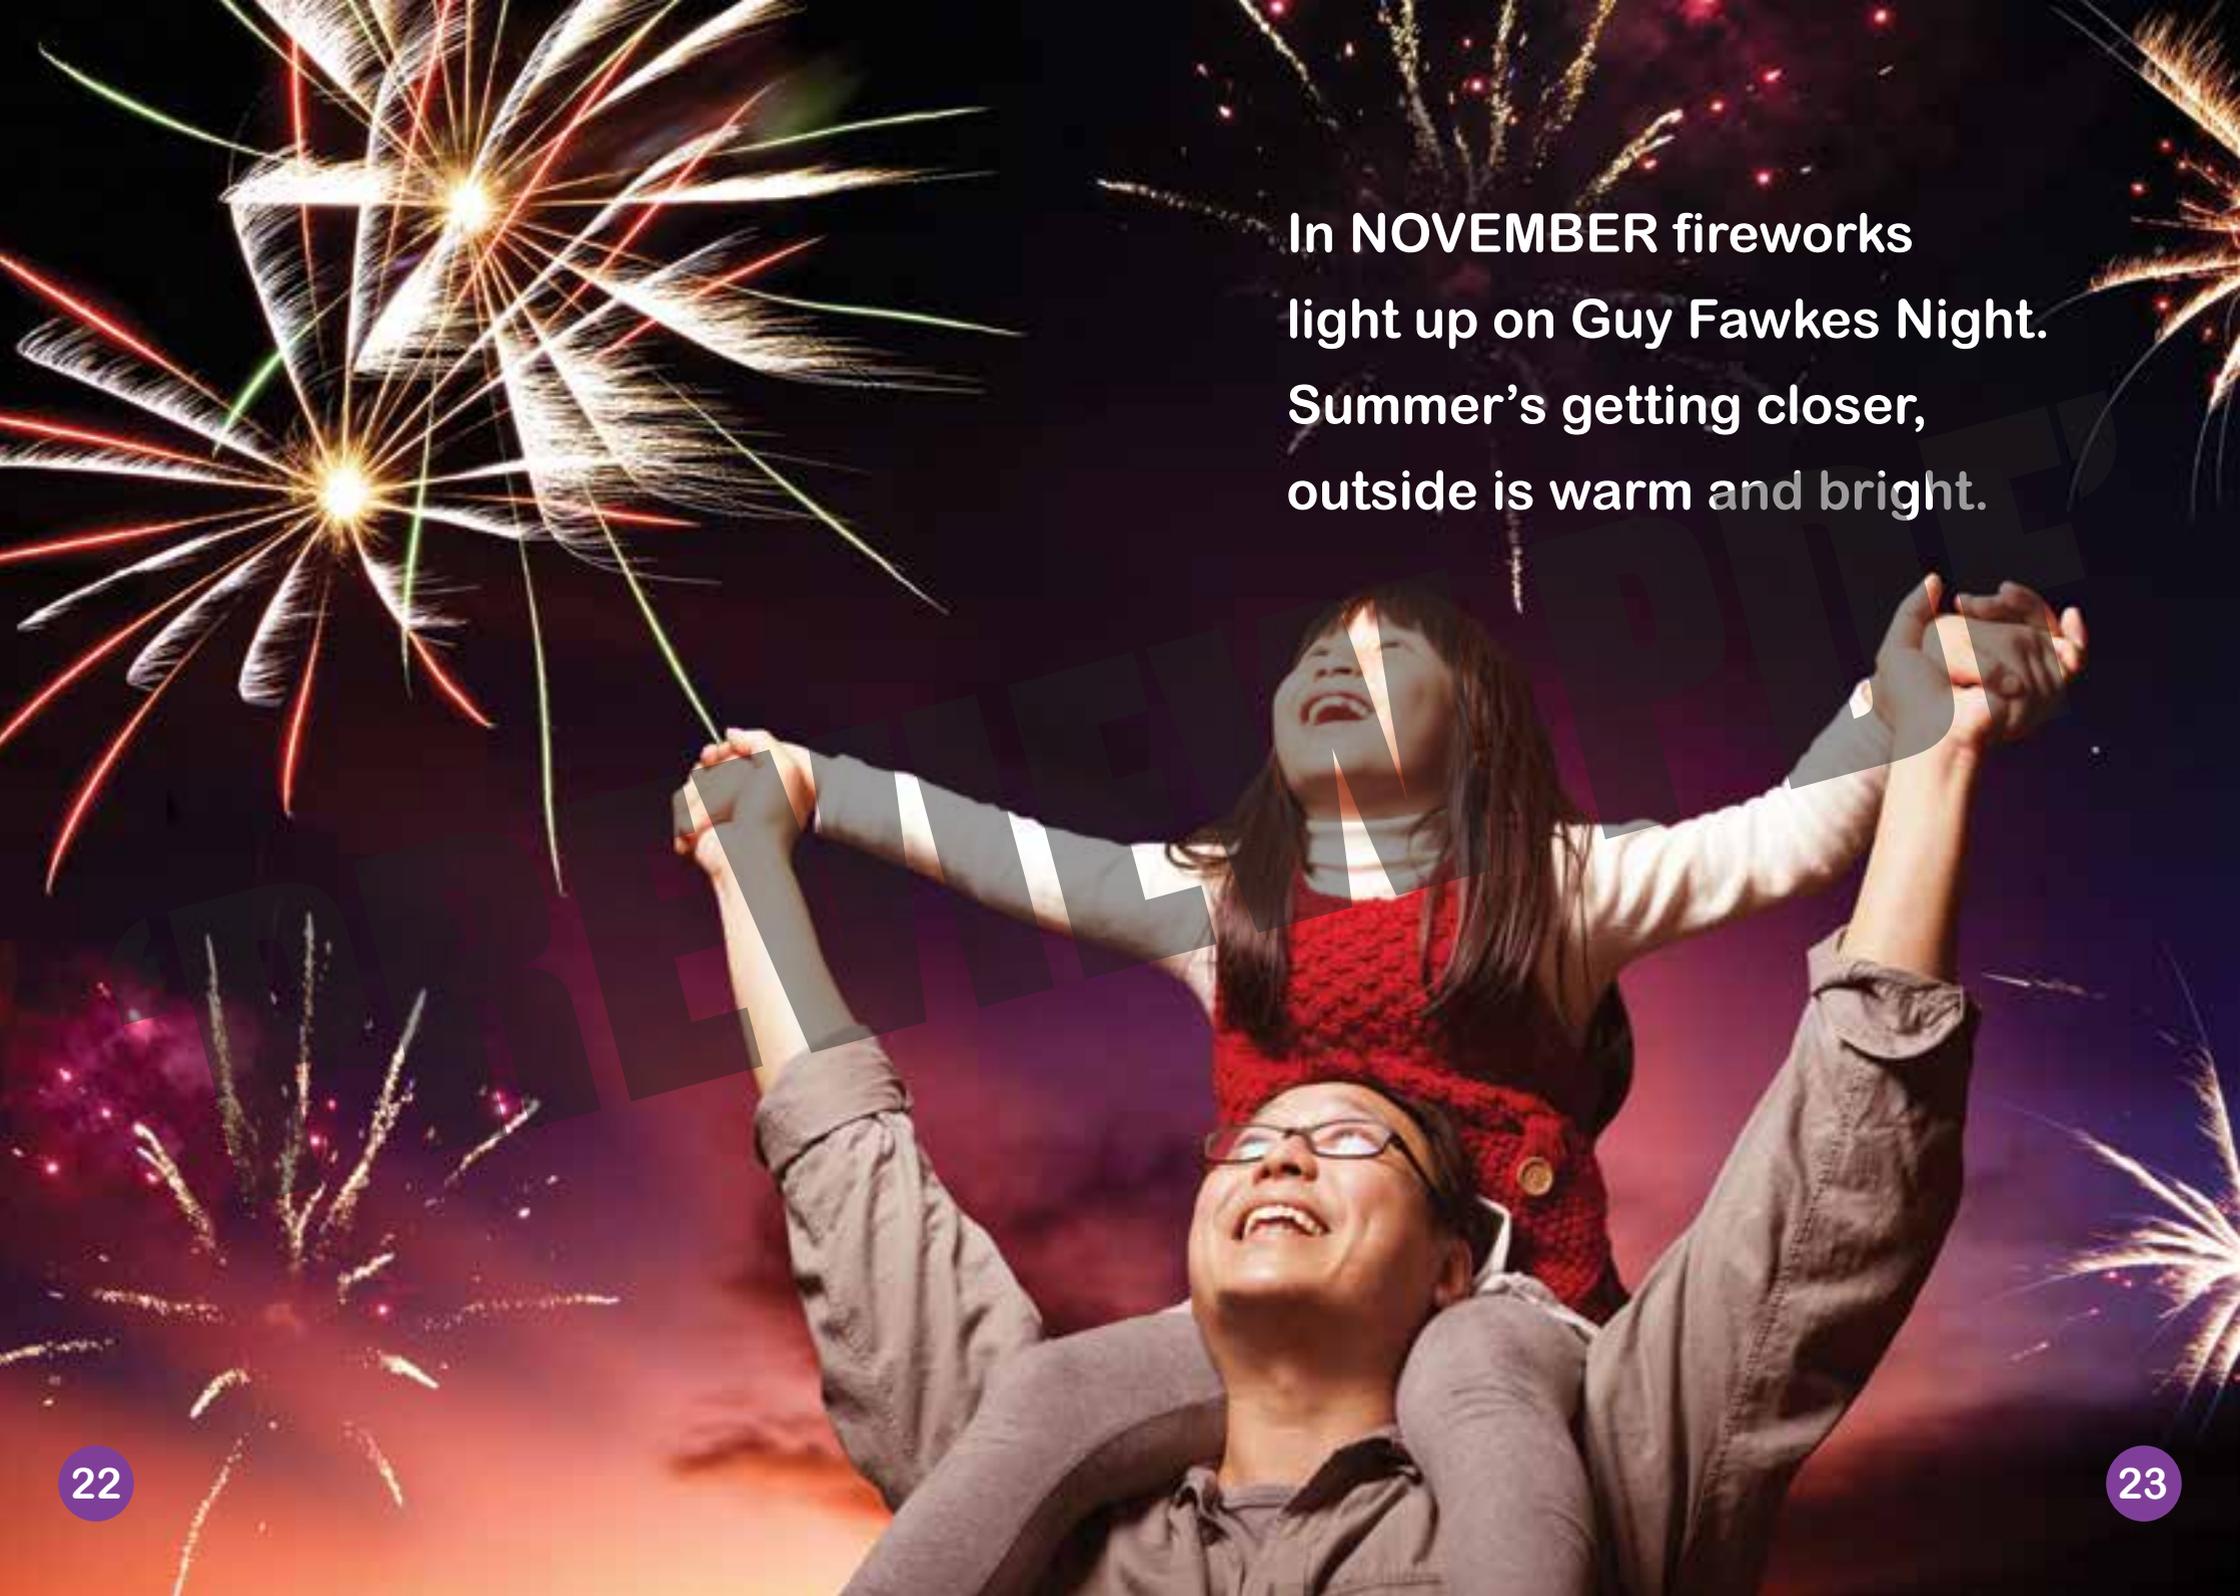

Spring starts in SEPTEMBER,
see new lambs baa and bleat.
Be nice to Dad on Father's Day,
give him a special treat.

OCTOBER skies have rainbows when the sun shines through the showers.

Seeds planted months ago now blossom into flowers.

A man with glasses is carrying a woman on his shoulders. They are both looking up at a night sky filled with colorful fireworks. The woman is wearing a red vest over a white long-sleeved shirt. The man is wearing a grey long-sleeved shirt. The fireworks are in various colors, including red, green, and white. The background is dark with the bright colors of the fireworks.

**In NOVEMBER fireworks
light up on Guy Fawkes Night.
Summer's getting closer,
outside is warm and bright.**

Outdoors in DECEMBER
is the place to be
for your Christmas picnic
with friends and family.
